

# Writing to CSV

To write to a CSV file

```
import csv

header = ['name', 'area', 'country_code2', 'country_code3']
data = ['Afghanistan', 652090, 'AF', 'AFG']

with open("C:\\Users\\Nicholas Goh\\Desktop\\test.csv", 'w', encoding='UTF8', newline='') as f:
    writer = csv.writer(f)

    # write the header
    writer.writerow(header)

    # write the data
    writer.writerow(data)
```

Change `'w'` to `'a'` for Append instead of Overwrite

Change `"C:\\Users\\Nicholas Goh\\Desktop\\test.csv"` to your CSV output location
